PROFESSIONAL SUMMARY

Driven Computer Science undergraduate and Full-Stack Developer with hands-on experience building intelligent, scalable web applications and managing enterprise IT infrastructure. Proficient in Python (Django, FastAPI) and PHP, with a strong foundation in AI integration, computer vision algorithms, and CI/CD automation pipelines. Proven track record in complex network troubleshooting and user support, looking to leverage technical expertise within a fast-paced development or engineering team.

TECHNICAL SKILLS

Backend Development:	Python (Django, FastAPI), PHP
Frontend & Web:	HTML5, CSS3, JavaScript, Full-Stack Web Architecture
AI & Data Science:	Computer Vision, Machine Learning Basics, Intelligent AI Chatbot Integration
Databases:	Database Design, Management, Query Optimization (SQL/NoSQL)
DevOps & Infrastructure:	CI/CD Pipelines, Network Setup & Troubleshooting, CCTV Installation & Configuration
Soft Skills:	Analytical Problem-Solving, End-User Support, Technical Systems Training, Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Industrial Attachment

Kenya Airports Authority (JKIA)	May 2025 – Aug 2025
• Provided critical tier-1 and tier-2 user support and technical assistance to airport staff, minimizing critical operational downtime. • Assisted in enterprise-level network setup, configuration, and proactive system maintenance across the station. • Managed hardware deployments, routine servicing, structural repairs, and resolved complex system/network faults. • Operated and maintained the Flight Information Display System (FIDS) while leading training sessions for staff on updated IT tools.	

Industrial Training

Masinde Muliro University of Science and Technology	May 2024 – Aug 2024
• Gained robust, practical experience in full-stack web development and secure relational database management systems. • Practiced iterative network troubleshooting, basic infrastructure management, and physical hardware support. • Handled strategic CCTV installations, IP camera configurations, and physical security network maintenance.	

KEY PROJECTS

HealthStack System | *Full-Stack Developer*

- Developed a comprehensive, full-stack hospital management system handling core healthcare services and administrative workflows.
- Integrated a 24/7 AI-powered chatbot to automate patient support, triage initial inquiries, and streamline appointment scheduling.
- Optimized relational database performance to ensure secure, rapid, and compliant access to sensitive patient medical records.

Smart Barber Counter (Computer Vision) | *Lead Developer*

- Built an automated shop analytics pipeline that captures and processes live operational CCTV video streams.
- Programmed machine learning and computer vision algorithms to accurately detect and quantify specific haircutting actions (shave counts).
- Automated business logging by streaming real-time metrics directly to a centralized database for business auditing and security.

EDUCATION

B.Sc. in Computer Science

Masinde Muliro University of Science and Technology

Expected Dec 2026

Kenya Certificate of Secondary Education (KCSE) — Grade: B+

Nyabigena Boys High School

2018 – 2022
